A Mixture machine is product for the mixing commodity product such as Tobacco, powder, chemical additives etc.

Dry mortar mixing production line is designed based on the traditional mixer, is added a material conveying system, a storage bin and an automatic filling machine. The well-mixed materials will go into the storage bin via material conveying pipe, and the mixer may be feed consecutively and work continuously in flow line production, but the equipment is not over 4 meters high, thus solving the problem of heightening the workshop

Power requirement is 220 VAC, 1 phase, 50/60 Hz OR 3 Phase to operate: position can push handle. The can is double seamed remove the can.

APPLICATION MANAGEMENT

The K K FACTORY Can Seaming designed for plug and play nstallation.
However customers are required to a K K FACTORY Supervisor on hand to teach staff in the operation of the Machine.
